

American Sugar Refining, Inc.

December, 2007

To All American Sugar Refining, Inc. Valued Customers:

In response to numerous customer inquiries regarding the potential presence of known allergens in our American Sugar Refining, Inc.'s products, please note the following:

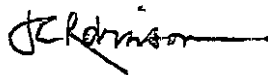

With respect to the potential presence of known allergens, please be advised that neither crustaceans/shellfish (such as crab, crayfish, lobster, and shrimp), pork or any other animal, eggs, gluten, sulfites, MSG, fish, milk/dairy, whey, milk proteins, caseinate, butter, peanuts, peanut by-products, wheat, barley, rye, oats, psyllium, soy, celery and its products, mustard and its products, sesame and its products, tree nuts (including almonds, Brazil nuts, cashews, filberts, hazelnuts, macadamia nuts, chestnuts, pecans, pine nuts, pistachios, and walnuts) nor their derivatives and by-products are present in any refined cane sugar product we manufacture. In addition, none of our refined cane sugar products are produced on equipment that comes in contact with any of these known allergens.

With respect to product labeling, all of our products are properly labeled in accordance with the Food Allergen Labeling and Customer Protection Act of 2004 (FALCPA).

A detailed procedure, Food Allergen Control Policy, is maintained as a part of the Corporation's Quality System documentation. This policy addresses each of the areas that must be managed and controlled to realize effective allergen control.

I trust this will satisfy your requirements. If you need further information, please contact our Sales or Customer Service group.

Sincerely,
American Sugar Refining, Inc.

Jeffrey C. Robinson
Technical Director
